Organ Transplant Awareness Program

November 2022

Support Group will meet November 11, 2022 1:00 pm - 3:00 pm

Hello All,

Please note: the support group will be held the second Friday of November. Unfortunately, I got Covid on October 22nd, so I want to isolate for longer than the recommended 5 days. The first few days were tough, but I am well on my way to recovery. The CEO of the American Liver Foundation was in Santa Fe on Friday, October 28, to spread awareness about liver disease. She was joined by Patricia Pistorio, OTAP member. The Albuquerque, Doubletree Hotel, lit up in green lights for the event. One thousand people in New Mexico received free Hep C, and Fatty Liver testing. Stay Safe & Take Care - Evelyn

Congratulations!

Renee Roybal

OTAP Mission Statement

The mission of Organ Transplant Awareness Program is to promote organ donation and support transplant community members including transplant candidates, donor families, living organ donors, transplant recipients, and transplant families. We promote organ donation by participating in a variety of community events. Our support group meets once a month for those who need support or are seeking information about the transplant process. We also advocate for social policies that promote and facilitate organ donation.
